

Dear Co-Laborer and Fellow Shepherd,

Greetings in the Name of our Lord Jesus Christ! I trust this letter finds you well and in promising fields. It is always a privilege to recommend a ministry couple who serve Christ with impassioned hearts, along unwavering lines of excellence. With such in mind, I want to commend to your attention Subash and Sandra Muthyala and their much-needed work at Bibles International, the Bible Society of Baptist Mid-Missions.

As their sending church, we have had ample time to serve with, pray for and observe carefully the Muthyala's — and find them a couple with mature spiritual experience, a thorough knowledge of Scripture, a solid home, marriage and work ethic, all matched with considerable skills for applying timeless truths to contemporary issues. Devoted to our Lord as well as the ministry here at Highland Hills, their work has been biblical, practical, gospel-driven and largely derived from their own experiences in missions, education, leadership training and church planting.

Most recently, Subash and Sandra have been serving at Bibles International since 2023 and were received as Baptist Mid-Missions appointees in June of 2025. Working in the area of Advancement they have excelled in building partnerships with churches and individuals, while promoting emerging opportunities for developing reliable Bible translations so essential to winning souls and establishing churches around the world. Their work however, is not just nice but altogether necessary. Bibles International exists because we want everyone to know about Jesus!

Realizing the Great Commission importance of translating Holy Scripture into native tongues, support for Subash and Sandra would be a huge step in a Christ-centered direction. I would encourage you to prayerfully consider such a step, as we have done at Highland Hills. We are blessed to be their sending and supporting church. May a gracious God lead you to join us.

Safe in the Savior,
James Wells
